Response to Amendment

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Monique Morneault on 10-25-2004.

The application has been amended as follows:

Claims 47-50 have been cancelled.

Allowable Subject Matter

Claims 29, 32-46 and 51-53 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record neither teaches or suggests an electrical tomographic method for detecting abnormalities in bodily matter comprising the steps of generating electrical signals having a frequency greater than 4 MHZ and applying the electrical signals to the bodily matter using an electrode arrangement such that the electrical impedance properties of the bodily matter can be ascertained. Then using data processing means correlating the detected electrical impedance properties with the presence or absence of abnormalities in the bodily matter using a fractal model of tissue impedance.

Art Unit: 3742

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
